

PennHIP Report

Referring Veterinarian: Dr Nina Duflo	Clinic Name: Rogue Valley Veterinary Hospital
Email: rvvh@roguevalleyvet.com	Clinic Address: 4210 14 Mile Rd Ne Rockford, MI 49341
	Phone: (616) 863-9390
	Fax: (616) 863-0903

Patient Information

Client: Leyendecker, Keith & Bridgette	Tattoo Num:
Patient Name: Ollie Of Great Lakes Gun Dogs	Patient ID: 6354C
Reg. Name: Ollie Of Great Lakes Gun Dog	Registration Num: BF-000781
PennHIP Num: 142953	Microchip Num: 985113001715147
Species: Canine	Breed: BRAQUE FRANCAIS
Date of Birth: 22 Jan 2018	Age: 29 months
Sex: Male	Weight: 51.1 lbs/23.2 kgs
Date of Study: 03 Jun 2020	Date Submitted: 09 Jun 2020
Date of Report: 10 Jun 2020	

Findings

Distraction Index (DI): Right DI = 0.19, Left DI = 0.16.
 Osteoarthritis (OA): **No radiographic evidence of OA for either hip.**
 Cavitation/Other Findings: No cavitation present.

Interpretation

Distraction Index (DI): The laxity ranking is based on the hip with the greater laxity (larger DI). In this case the DI used is 0.19.
 OA Risk Category: The DI is less than or equal to 0.30. This patient is at minimal risk for hip OA.
 Distraction Index Chart:

BREED STATISTICS: This interpretation is based on a cross-section of 33 canine patients of the BRAQUE FRANCAIS breed in the AIS PennHIP database. The gray strip represents the central 90% range of DIs (0.23 - 0.65) for the breed. The breed average DI is 0.37 (solid square). The patient DI is the solid circle (0.19).

SUMMARY: The degree of laxity (DI = 0.19) ranks the hip within the tightest 5% of DIs for the breed. This amount of hip laxity places the hip at a minimal risk to develop hip OA. **No radiographic evidence of OA for either hip.**

INTERPRETATION AND RECOMMENDATIONS: No OA/Minimal Risk: Unlikely to show radiographic evidence of hip OA; even more unlikely to develop clinical signs of hip dysplasia. **Recommendations:** Normal to strenuous activity is permitted. Keep lean: try to maintain BCS at 5/9 for a longer and healthier life.
Breeding Recommendations: Please Consult the PennHIP Manual.

COMMENTS:

Thank you for following policy and sending at least 2 Distraction views, as confirmation, when the hips appear tight (less than 0.30 DI).
